The Friends of Historic Centreville Mission Statement

Being committed to the preservation and promotion of the resources of the Centreville Historic District and the conservation of its land and scenic values, we seek to advocate for the needs and future of the Centreville Historic District, to foster fund raising efforts and grants for preservation and restoration projects, and maintain a working relationship with the Historic Centreville Society, the Fairfax County History Commission and Fairfax County Agencies, to complement the efforts of all those working for the greater good of Centreville's Historic District.

And that means?

FHC is an advocacy group. We helped to get the Centreville Historic District expanded and we take an active part in the development process in the Centreville Historic District. We're working to get the Centreville Historic District listed on the National Register of Historic Places and we expect to actively participate in making the new Historic Centreville Park a great place to visit. Someday we'd like to see a Centreville Museum open its doors

FHC believes in the power of coalition and shared information. We actively work with other historical groups, in particular the Historic Centreville Society and the Bull Run Civil War Roundtable, and with other organizations such as the Centreville Community Foundation, to conserve and promote the resources of the Centreville Historic District and of the greater Centreville area.

FHC usually meets on the second Tuesday of the month at the Old Stone Church. Please [contact us](#) if you would like to attend a meeting.
